

## ePay Advantage

### Powered by Nodus

#### For Microsoft Dynamics 365 F&O

Today's customers expect the convenience of online bill payment. The good news? ...

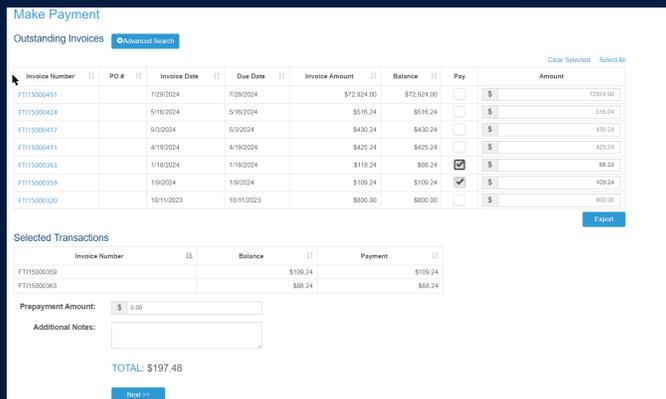

Giving your customers what they want also saves your company time and money.

#### Integrated Online Bill Pay

ePay offers the latest in online bill presentment and payment technology for enterprises. Our robust payment portal effortlessly sends invoice notifications to your customers and allows your customers to view and pay their invoices online. Eliminate double entry, wasted man hours, and endless journeys down a paper trail.

Our ePay Advantage module provides real-time payment processing and eliminates double data entry. It seamlessly integrates the payment back to the accounting system and automatically applies payments to invoices.

#### Your customers pay online

ePay's web portal provides point-n-click payment of invoices (via credit card or e-check).

#### ePay Advantage Key Features:

- Secure and mobile-ready customer portal with invoice and payment visibility.
- Real-time or scheduled electronic payment processing (credit/debit card, eCheck)
- View and export payment reports to Excel and CSV files.
- Multiple automatic email notifications with editable email templates.
- Online invoice presentment
- Automatic generation of payment documents with seamless integration to Microsoft Dynamics 365 Finance and Supply Chain

#### Accounts Receivable is updated

Payments made on the portal automatically settle the D365 invoice and generate the AR payment journal. Voila, your staff does nothing to process the collection!

Customer	Customer name	Entity	Change Type	Action	Status	Created date and time	Date time sent	D365 reference number	Amount	Currency	Payment journal number
SKG-000021	Ryan's Beets (ePay)	Payment	Created	Payment from ePay	Completed	8/12/2024 3:17:29 PM	8/12/2024 3:17:29 PM		50.00	USD	SKG-006296
