Enhance the Accounting Operations Across Your Organization

SKsoft provides macro and granular visibility and control to help every aspect of enterprise banking and treasury reach maximum efficiency.

- ✓ CFOs
- ✓ Treasury Managers
- ✓ Controllers
- ✓ Accountants
- ✓ CIOs
- ✓ IT Directors

Advanced Accounting Functionality for Growing Businesses

Say goodbye to time-draining accounting functions and say hello to ease, efficiency, and control. Embedded banking automation software extends the functionality of Dynamics 365 Business Central, empowering SMB leaders and accounting teams to get more done and make better business decisions.

Save Time with Payment Automation

Automate outbound payments by connecting your ERP to any banking platform worldwide.

Seamless Bank Connectivity

Sophisticated embedded software enables real-time, two-way communication with your bank in a highly secure environment.

Control Risk with Positive Pay

Automatically create and transmit your Positive Pay files to your bank of choice, all from within Business Central, resulting in a seamless, low-touch experience.

Centralize Bank Reconciliations

Support quicker, more precise bank reconciliation daily, weekly, or monthly with file and API-based data transmission between your bank and Business Central.

SKSOFT

TRUSTED SOLUTIONS
FROM BANKING AND
TREASURY EXPERTS

For 25+ years, our team of finance software specialists has been developing solutions to close critical accounting functionality gaps in leading ERP solutions and developing extended functionality that solves real-world business challenges through intelligent banking automation. Bring your most pressing accounting challenges to us, and we'll help you find the ideal solution – or create one for you.

WHY SKSOFT?

Our mission is to deliver unparalleled software and support services that empower finance teams around the world to unlock ever-higher levels of efficiency, productivity, and profitability.
